

# **"Just For Fun" Classes Offered Fall 2008**

Looking for activities where you can have fun and learn something practical at the same time? If so, you'll want to check out RTEC's latest series of "Just For Fun" classes slated to begin this November.

With offerings featuring everything from cake decorating, crockpot cooking and holiday baking to Reiki, arts and crafts welding, sewing basics and recipe revisions, you're bound to find something that you'll find both entertaining and educational. There's even a class planned that will show you how to perform seasonal maintenance on both your lawn mower and your snow blower.

"We're really excited to offer these "Just For Fun" classes this fall," according to Josh Svatos, RTEC's general manager. "With all of the other issues weighing on people's minds, we believe these classes will be beneficial on many different levels."

"These classes will allow people to spend a few worry-free hours simply having fun," he continued, "while at the same time, they'll also give people an opportunity to learn something that has the potential to save them time and money in the long run."

Classes included in RTEC's "Just For Fun" lineup include:
