

# **RTEC Offers Skill Improvement Welding Classes**

**Whether you've been welding on the job for several months or for many years, RTEC's 20-Hour Skill Improvement Welding Training can help you upgrade your welding skills.**

**During this training program, a variety of options are available. Simply choose the area or areas that best suit your needs. Then you'll be able to use the classtime to brush up on that particular skill, learn new welding positions or even explore different types of welding. You can even get a feel for the lost art of torching and stick welding.**

**No matter which skill area you choose to pursue, you'll gain knowledge and experience that can help you become a more valuable and flexible employee, poised for a salary increase at review time.**

**Possible skill areas include:**

- **stick welding**
- **mig welding**
- **tig welding**
- **aluminum welding**
- **flux cord welding (fcaw)**
- **different welding positions**

**Cost of the class is \$395 plus tax. The course is approved for funding from the Workforce Investment Act (WIA) program.**

**Classes are scheduled throughout the year in response to demand and the instructor's availability. They are typically held from 4-8 p.m. on Monday and Wednesday evenings at RTEC.**

**For more information on the next class dates or to enroll in an upcoming Skill Improvement course, please contact RTEC at (605) 668-5700.**
