

Apply today! Class Begins Aug. 16, 2010!

CNA

Certified Nursing Assistant Training Program

Are you a caring, compassionate person with a strong desire to help people? Are you thinking about pursuing a career in the healthcare field? If so, this training program offered through a partnership between Avera Education & Staffing Solutions and RTEC, is the perfect place to start.

Though known by several different names, Certified Nursing Assistants (CNAs) work under the supervision of a nurse to help patients with daily living activities. CNAs are responsible for basic care services such as bathing, grooming and feeding, assisting nurses with medical equipment, and checking patient vital signs. They also give patients valuable social and emotional support and provide vital information regarding patient conditions to nurses.

During this 75-hour program, you'll acquire the fundamental skills and knowledge you'll need to work as a nursing assistant. After successfully completing the program, you'll be eligible to take the certification exams. Once you've passed, you'll be on your way to a rewarding career as a CNA.

Apply today! Registrations are due at least one week prior to the class start so that textbooks and pre-class assignments can be distributed. Payment is due when books are picked up.

During this nursing assistant training program you will:

- Spend 40 hours learning basic nursing skills and studying anatomy & physiology, nutrition and infection control in a classroom/lab setting at RTEC
- Complete 35 hours of clinical practice at an approved long-term care site
- Prepare to take the written and skills certification exams
