

## We want your input!

RTEC is looking at holding an *AWS Certified Welding Inspector (CWI) class*, in Yankton, this fall if there's enough interest. This is a 40 hour class and will be held M-F, 8 am to 5 p.m. with the visual testing happening on the following Saturday morning. Knowledge and Code Book test would be scheduled in Sioux Falls at a proctoring center. **If interested please contact Denise Kneifl for more information (605-668-5700 or dkneifl@rtcedu.org).**

### RTEC is an AWS Accredited Welding Test Facility

*AWS certification testing for experienced welders.*

**Contact us for more information at (605) 668-5700**

#### Welding Basics

#### Class Schedule

**Are you or your business in need of any steel projects?**

**Our welding classes are looking for projects. We have done picnic tables, bike racks, handicap ramps, etc. Cost is billed for materials only.**

**Contact us today if you have any projects!**

## Yankton Manufacturing Academy 2024

pick up sign-up sheet at RTEC or print off

**High school students** are invited to join us this summer at our annual Yankton Manufacturing Academy to learn about the manufacturing industry. YMA student participants will be exposed to Welding, CNC machining, CAD, 3D printing, as well as the business side of manufacturing!

Included in this hands-on approach will be tours to local businesses to learn about the different careers and products, right here in Yankton!

This event is FREE, and we're hoping to make this year both fun and educational-on a new level!

Denise has some great ideas that will be implemented. If your child has attended before and would like to come again, they are welcome (as long as they are an incoming high school student for the year 24/25).

**Session Dates: June 3rd-14th, 8am-4pm**

Give us a call if you have questions.
